

TXL 150 MOBILE SCISSOR LIFT TABLE WITH A FOLDING HANDLE

The TXL150 is a mobile scissor lift table ideal for medium duty use in workshops, stores and warehouses. It has a smooth and easy operation. The handle folds down when the platform is lowered, making the table very compact for storage. Both swivel wheels are fitted with total stop brakes.

- CE Marked and conforms to EN1570 (Safety Requirements for Lifting Tables)
- Manual hydraulic lift operated by foot pump with relief valve preventing overload
- Two fixed and two swivel polyurethane tyred castors with brakes
- Special sizes and modifications available on request.

Technical data:

Capacity (Q):	150 kg
Maximum lift height (H):	740 mm
Closed platform height (h):	225 mm
Table size (LxCxE):	450 x 700 mm
Overall length (B):	930 mm
No. of pumps to full height:	≤23
Wheel diameter (D):	100mm
Approx. weight:	43kg
