

LiftMate LEPT13 POWERED PALLET TRUCK

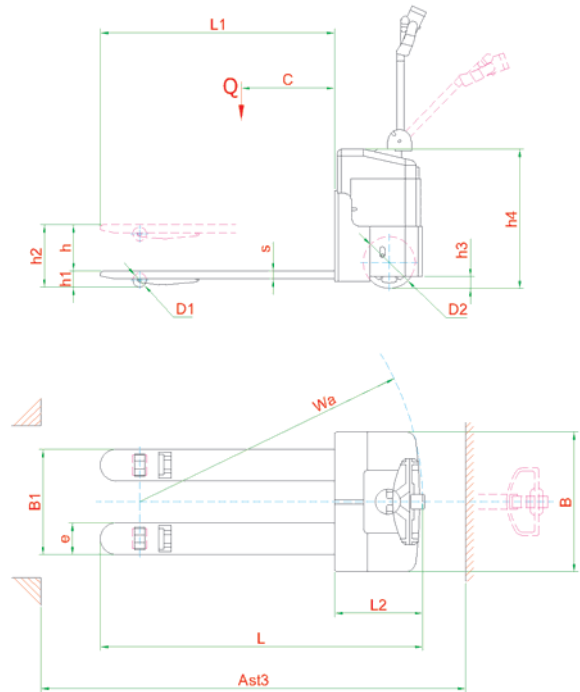

The **LiftMate LEPT 13** is a compact, low cost, powered pallet truck designed for horizontal pallet movement in light to medium duty applications. It is perfectly suited to businesses that wish to upgrade from hand pallet trucks to safe, comfortable and productive pallet handling. Retail operations, small stores, manufacturing sites – in fact any operation that utilises hand pallet trucks – will find the LEPT13 an indispensable help.

- Light enough to be used on mezzanine floors and vehicle tail lifts
- Robust and strong enough to handle loads of up to 1300kg
- Choice of sizes to suit UK and Euro pallets

FEATURES & BENEFITS:

- Safe and effortless moving of pallets
- High mobility in confined spaces due to its compact size
