

## Skid Lifters

- Raise pallets or platform to correct working height to minimise back strain
- Combination of pallet truck and lift table
- Ideal for loading and unloading operations
- Fully welded heavy duty steel frame
- Easy to use control lever & total stop brake on castor wheel
- Foot operated pedal for easier and faster lifting
- Steering tiller handle on 1000kg models for easier and comfortable turning

### Technical specifications:

Model	PL50S	PL100S	PL50L	PL100L
Capacity	500kg	1000kg	500kg	1000kg
Load Centre	560mm		560mm	
Lowered fork / platform height	85mm	88mm	85mm	88mm
Max. raised fork / platform height	830mm	833mm	830mm	833mm
Fork / platform length	1115mm		1115mm	
Width over forks / platform width	526mm	538mm	690mm	703mm
Pump strokes to max. lift height	45	90	45	90
Load rollers	ø70x68 Polyurethane		ø70x68 Polyurethane	
Steer wheel / castors	Ø150x40 Polyurethane		Ø150x40 Polyurethane	
Overall length	1550mm		1550mm	
Overall width (without / with platform)	526 / 538mm		526 / 538mm	
Overall height	1012mm	1307mm	1012mm	1307mm
Net weight (incl. platform)	122kg	150kg	122kg	150kg
